Cannabinoid Analysis

Pharmacological Effects Analysis

This medicine is recommended for:

- **Mood Alteration**
- **Pain Relief**
- **Appetite Stimulation**

BudGenius® recommends 5mg - 15mg per therapeutic dose for edibles.

Amount may vary depending upon patient tolerance and frequency of use. Results listed are total mg per medicinal item. Each item may contain several doses. Patients are advised to divide the medicine into portions to reflect a therapeutic dose. Edibles may take 1hr - 2hrs to begin full therapeutic effect. Do not increase dose until this time period has passed.

Thank you for having your product tested by BudGenius®.

Please remember to visit us online at <http://www.budgenius.com> and log into your account to view further ratings that your patients have reported about your products. You will also be able to send links, tweets, post on Facebook, and much more through the BudGenius® software.
